citizens or naturalized citizens that have been involved with anarchist groups such as the Ruckus Society. They also have shown a loose association with foreign terrorist organizations such as Hamas, the Popular Front for the Liberation of Palestine, and Islamic Jihad activists.

Since the inception of the investigation, Los Angeles Division has developed several confidential informants that are providing ongoing intelligence on group members and their activities.

Although Los Angeles Division's investigation is in the early stages, it hopes to develop sufficient predication

b7E -1

Based on investigations conducted in Dallas and Los Angeles Division, it is believed that this group poses a genuine threat to the domestic security of the U.S and to Israel due to the fact that through their U.S origins, ISM members can travel with little scrutiny to the middle east to conduct illegal activity. Although there has been no reporting of ISM members being used as suicide bombers, their predisposition to anti-capitalist and anti-global philosophy coupled with their sympathetic views on the Palestinian cause gives rise to the concern that ISM members can be directed, coerced, or through their own volition, be the purveyors of acts of terrorism.

Based on conversations with Los Angeles Division,	
has determined that a coordination meeting should be held	
<u>with</u> representatives from	b7E -1
and offices currently conducting investigations related	
to ISM. The purpose of the meeting would be to assess the	
current investigative activity to date, share intelligence,	
and to coordinate and formulate strategy for future	
investigation of ISM.	
The meeting has been tentatively scheduled for	
November 8, 2004 in the conference room, FBI	
Headquarters at 9:00 am. Attendees are requested from the LA,	
DI. and SF field offices and are authorized to use	b7E -1
